

# SUPPORT PAKISTAN TO RESPOND TO 2022 MONSOON FLOODS

"Pakistan needs help at this difficult time. With many local volunteers working on the frontlines to conduct rescue operations and deliver emergency assistance, UN Volunteers in Pakistan is gearing up to mobilize even more volunteers to assist those in need." *Toily Kurbanov, UNV Executive Coordinator*

## Background

The United Nations Volunteers (UNV) programme is administered by the United Nations Development Programme and contributes to peace and development through volunteerism worldwide. We work with partners to integrate qualified, highly motivated, and well supported UN Volunteers into development programmes and promote the value and global recognition of volunteerism. The 2030 Agenda for Sustainable Development explicitly recognizes volunteers as stakeholders to achieve the 17 Sustainable Development Goals.

In 2021, the UN Volunteers deployed 1,671 UN Volunteers to serve with 32 UN partners in 34 countries in Asia-Pacific where they contributed to humanitarian assistance, development cooperation and peacebuilding. In efforts to leave no one behind, among the deployed UN Volunteers 44 persons with disabilities, while the proportion of female UN Volunteers in Asia and the Pacific was 47.7 per cent in 2021.

## UN Volunteers' response to floods in Pakistan

During this time of uncertainty caused by the recent monsoon floods, UN Volunteers is working with partners in Pakistan for emergency response.

- 480 candidates on crisis and emergency response are deployed in Pakistan
- 900 national candidates are available in UNV talent pool ready to serve with UN partners to respond to crisis and emergency
- 40,000+ international candidates are available to support crisis and emergency response
- More than 250,000 candidates with global expertise to emergency response are available to provide online services

## Flood Situation overview in Pakistan – as of 09 September 2022
