84/4. Measures to be taken to meet the changing technical co-operation requirements of the developing countries

The Governing Council,

Reaffirming the critical role of technical co-operation in promoting self-reliance and building human resources in developing countries and the unique contribution of the United Nations Development Programme to that effort,

Reaffirming also the central and co-ordinating role of the Programme as the leading body for technical co-operation within the framework of the United Nations,

Recognizing the importance of ensuring that the technical co-operation activities of the United Nations system remain responsive to changing development needs and geared to the specific requirements of individual countries,

Recognizing also the necessity of continuing to examine ways in which the provision of technical co-operation by the Programme in addressing those needs can be made more effective,

Recalling General Assembly resolutions 2688 (XXV) of 11 December 1970 on the capacity of the United Nations development system and 3405 (XXX) of 28 November 1975 on new dimensions in technical co-operation, together with the annexes to those resolutions,

Recalling also General Assembly resolution 35/56 of 5 December 1980, in which was stressed, inter alia, the important role to be played by technical co-operation in the implementation of the International Development Strategy for the Third United Nations Development Decade,

Recalling further General Assembly resolutions 32/197 of 20 December 1977 on the restructuring of the economic and social sectors of the United Nations system, 35/81 of 5 December 1980 on a comprehensive policy review of operational activities for development, and 37/226 of 20 December 1982, concerning the operational activities for development of the United Nations system and the role of the United Nations Development Programme therein,

Sharing the deep concern expressed by Governments and by the Administrator of the United Nations Development Programme that the Programme should be adequately financed and equipped to meet the changing technical co-operation requirements of developing countries,

Taking note of the report of the Administrator on measures to be taken to meet the changing technical co-operation requirements of the developing countries (DP/1984/4), the relevant parts of his annual report for 1983 (DP/1984/5), and the comments of Governments thereon,

1. Notes the Administrator's findings on the continuing need for technical co-operation and on the changing requirements for such co-operation which call for new measures and appropriate adaptations on the part of the United Nations Development Programme;

2. Stresses the importance of maintaining a balanced approach in meeting such needs and the necessity of enhanced effectiveness in the programming and implementation process;

3. Affirms the necessity to maintain the capacity of the Programme for flexible responses to meet changing needs in a widely varying set of local conditions and in this regard to pursue the "continuous programming" within the framework of the country programmes as an effective means of responding to the changing technical co-operation needs of a country;

4. Urges all organizations of the United Nations system to co-operate with the United Nations Development Programme in making effective use of the country programming process as a frame of reference for technical co-operation;

5. Considers that the assessment and planning of the overall technical co-operation needs of the developing countries could provide a useful framework of action for co-ordinated provision of technical assistance from external sources and that the country programming process can be a useful vehicle for interested countries in this respect, and requests the Administrator to assist Governments, at their request, in formulating country programmes;

6. Encourages Governments, when preparing their country programmes, to continue taking into account the global themes and priorities elaborated and expressed in various intergovernmental resolutions as they relate to their national plans;

7. Further encourages Governments to consider the advisability of bringing together smaller projects into "umbrella projects" to reduce the administrative workload entailed in managing large numbers of smaller projects and to gain in programming impact;

8. Invites the executing agencies to continue to improve their policies and procedures to ensure that their accumulated technical knowledge is fully accessible to Governments, irrespective of project execution arrangements;

9. Notes with satisfaction the increased co-operation between the United Nations Development Programme, the World Bank and regional development banks in accordance with paragraph 23 of General Assembly resolution 38/171 of 19 December 1983 and within the framework of the follow-up activities, and urges those organizations to continue their close collaboration with the Programme, especially with respect to country and sectoral analysis and the programming and implementation of technical co-operation;

10. Reaffirms the importance of pre-investment and investment support activities as an integral part of the Programme's technical co-operation programme;

11. Welcomes the expanded role being played by the Programme's field office network in the management and support services being placed at the disposal of Governments, as well as the increasingly important role of these offices in resource mobilization;

12. Endorses the Administrator's view that the more advanced developing countries continue to require multilateral technical co-operation from the Programme, particularly in such areas as high technology, and in other areas where changing economic and social circumstances make new demands;

13. Urges the Programme to continue expanding and adapting its services and assistance to low-income developing countries and to ensure that their emerging needs in high technology and in other areas where changing economic and social circumstances make new demands also receive adequate attention;

14. Also urges the Programme to continue to respond effectively to meet the technical assistance needs of the least developed countries, in particular towards implementation of relevant parts of the Substantial New Programme of Action for the 1980s for the Least Developed Countries; a/

a/ Report of the United Nations Conference on the Least Developed Countries, Paris, 1-14 September 1981 (United Nations publication, Sales No. E.82.I.8), part one, sect. A.

15. Expresses its appreciation to the Administrator for assisting the least developed countries in the preparation of round-table meetings as called for by the Substantial New Programme of Action for the 1980s for the Least Developed Countries, and urges him to pay special attention to the follow-up to round-table meetings;

16. Welcomes the emphasis placed by the Administrator on grassroots approaches for development and on recipient Governments' increasingly tapping the potential of non-governmental organizations within the context of country programming and project execution, without prejudice to the basic principles of the Programme as embodied in the Consensus of 1970; b/

17. Welcomes further the Administrator's initiatives to strengthen and broaden the Programme's efforts to assist Governments, strictly in accordance with their priorities and expressly at their wish and with their consent, through collaboration with the private sector;

18. Stresses the importance of covering both the short-term and the long-term needs of developing countries for skilled manpower, and requests the Administrator to consider measures for addressing those needs, including the proposal for a human resources facility put forward during the thirty-first session, and to report thereon to the Governing Council at its thirty-second session;

19. Invites the Administrator to consider ways in which Governments can be assisted in the strengthening of their central planning and co-ordination capabilities;

20. Recognizes the increasing interest of Governments in more effective country-level co-ordination, by the recipient Government, of external assistance, and recognizes also that the structure and resources of the Programme can provide recipient Governments, at their request, with complementary means for achieving this task;

21. Reaffirms that, in accordance with General Assembly resolution 32/197 and paragraph 22 of Assembly resolution 38/171, as well as the priorities set by the Government concerned and in consultation with and with the consent of that Government, the United Nations Development Programme country programming process shall be used as a frame of reference for the co-ordination of United Nations operational activities for development at the country level under the overall responsibility of the resident co-ordinator and with full use of the facilities of the Programme's network, in order to facilitate the task of the host country in co-ordinating external assistance, achieving improved coherence of action, reducing administrative overhead costs and avoiding duplication of effort;

22. Appeals to the participating organizations of the United Nations system to join with the Programme in the efforts of the host Government to bring about wider and more effective development co-operation at the country level in accordance with the wishes of the host Government;

23. Requests the Administrator to take further steps to strengthen the co-ordination capabilities of the United Nations Development Programme field offices and to report thereon to the Governing Council at its thirty-second session.

1. Accepts recommendation 1, on the strengthening of field offices, but takes note of the Secretary-General's comment that a policy recommendation regarding general contributions to the cost of United Nations Development Programme field offices should await a full examination of all the field offices of all the organizations of the system, including the related cost, and that the role of the resident co-ordinator should be taken into account;

2. Takes note also of the Administrator's intention to review the staffing and other needs of the field offices, particularly in the least developed countries in Africa;

84/7. Measures to promote better understanding of the role and activities of the United Nations Development Programme and of the resource needs of the Programme

The Governing Council,

Recognizing that expanded support for the United Nations Development Programme and the growth in its resources are linked to knowledge and appreciation of the role and achievements of the Programme, particularly in donor countries,

Considering that the United Nations Development Programme, with the largest volume of voluntary contributions to mobilize each year and the most difficult image to project, has one of the smallest information budgets among the major funds and agencies of the United Nation system,

4. Notes the progress made under the training programmes in pre-investment for Programme staff and host government counterparts with financial institutions, including the World Bank and the Asian Development Bank, and requests the Administrator to continue training in this area.

9. Requests the Administrator to report on progress achieved on these matters to the Governing Council at its thirty-second session.

Taking note of the report of the Administrator on the implementation of the Substantial New Programme of Action for the 1980s for the Least Developed Countries (DP/1984/13 and Corr.1 and Add.1),

Noting with concern that voluntary contributions to the United Nations Capital Development Fund and the Special Measures Fund for the Least Developed Countries have steadily declined in 1983 and 1984,

Bearing in mind its decision 84/18 of 29 June 1984, on the economic and social crisis in Africa, and the fact that the least developed countries in that continent have been most severely affected by that crisis,

(e) Appropriate modalities for follow-up to the round-table conferences;

e/ Report of the United Nations Conference on the Least Developed Countries, Paris, 1-14 September 1981 (United Nations publication, Sales No. E.82.I.8), part one, sect. A.

f/ Proceedings of the United Nations Conference on Trade and Development, Sixth Session, vol. I, Report and Annexes (United Nations publication, Sales No. E.83.II.D.6), part one, sect. A.

2. Reiterates its appeal to all countries, particularly donor countries, to make all possible efforts to increase their voluntary contributions to the United Nations Capital Development Fund and the Special Measures Fund for the Least Developed Countries, and/or to appropriately extend increased financial support through other suitable channels to the least developed countries;

2. Expresses its appreciation to the Administrator and to the executing agencies for action taken to treat part of the costs of projects, where appropriate, as expenditure against government cash counterpart contributions and approves this modality;

3. Takes note further of agencies' views on the possibility of granting total waiver of support costs in respect of projects financed from the United Nations Fund for Namibia and the views of the United Nations Commissioner for Namibia on the subject;

3. Reconfirms the need for such special contributions, now made even more urgent by the full commitment of all funds made available from Special Programme Resources;

4. Notes further that, unless additional contributions are received, it will not be possible to undertake in timely and fully effective fashion the ready pipeline of basic development projects in the West Bank and the Gaza Strip;

5. Requests the Administrator, when the total amount available for allocations to Special Programme Resources for the fourth cycle has been determined, to make proposals, for consideration by the Governing Council, concerning the amount which could appropriately be utilized from those resources, having regard to the other claims thereon, to support programmes of assistance to the Palestinian people.

The Governing Council

1. Takes note of the reports of the Administrator on evaluation (DP/1984/18), including the status of thematic evaluations (ibid., annex I), the summary of the UNDP/FAO thematic evaluation study on national agricultural research (ibid., annex II), and the summary of the UNDP/ILO thematic evaluation study on training of industrial manpower (ibid., annex III), and on the interorganizational evaluation study of women's participation in development (DP/1984/19);
2. Takes note also of the report of the Administrator on the joint United Nations/UNDP/UNIDO evaluation of UNDP-financed technical co-operation activities of UNIDO in the field of manufactures (DP/1984/68) and of the relevant parts of the report of the Committee for Programme and Co-ordination on the work of its twenty-fourth session; g/
3. Endorses the course of action proposed by the Administrator in section II of his report (DP/1984/68).

14th meeting
18 June 1984

g/ Official Records of the General Assembly, Thirty-ninth Session, Supplement No. 38 (A/39/38), paras. 164-189 and 344-356.

The Governing Council,

Having considered the report of the Administrator on the mid-term review of the third programming cycle, 1982-1986 (DP/1984/20 and Add.1),

Reaffirming its decision 80/30 of 26 June 1980,

Reaffirming also its decision 83/5 of 24 June 1983,

1. Notes the Administrator's review of the voluntary contributions experience, in particular that voluntary contributions over the past four years increased, on the average, by 7.2 per cent annually in pledged currencies but declined, on the average, by 1.2 per cent annually expressed in US dollars;
2. Also notes the Administrator's projection of resumed growth in voluntary contributions for the years 1985 and 1986, although at a level far below the one envisaged for the cycle;
3. Urges all countries which are in a position to do so to increase their contributions to the United Nations Development Programme to achieve adequate real growth of the resources of the Programme during the remaining years of the third programming cycle;
4. Takes note with appreciation of the Administrator's actions to safeguard the financial and substantive integrity of the Programme;
5. Further takes note with appreciation of the actions taken by the Administrator to reduce the staffing and other administrative costs to a level more commensurate with the lower programme level;
6. Decides that no meaningful general revision of indicative planning figures can be made in the current resource situation;
7. Decides further that, although the current resource situation may not allow any revision of IPFs of those countries whose real economic situation has deteriorated substantially from 1978 levels, such a revision may be considered to the extent that improvement in the resource position of the Programme will permit in the future, and to the extent that it would not result in the reduction of other programmes;
8. Notes that the Administrator has been able to implement section VI of Governing Council decision 83/14 of 16 June 1983 in respect of the programme levels of countries with small IPFs, as the modest amounts involved made this possible;
9. Notes the Administrator's actions to increase the resource flows to, and improve the co-ordination of, Programme activities for the least developed countries;
10. Decides that for the purpose of determining the carry-forward to the fourth cycle, the norm against which positive or negative carry-forwards would be calculated shall be derived using 55 per cent of the illustrative IPF, except for those smaller IPFs covered by decision 83/14, as implemented;
11. Approves the proposed conditions for borrowing from fourth-cycle IPFs as follows:

(a) Borrowing will be authorized only to the extent that it does not threaten the financial integrity of the Programme and that total expenditures are kept within available resources;

(b) Borrowing will be authorized only for countries in a region up to a maximum of expected under-expenditures in the third cycle in respect of other countries in the region;

(c) Borrowing will be authorized only for countries where the fourth-cycle IPF is expected to be larger than the third-cycle illustrative IPF (at 55 per cent);

(d) Borrowing will be authorized only up to a maximum of 15 per cent of the third-cycle illustrative IPF (at 55 per cent) for each country qualifying for borrowing;

(e) Borrowing for intercountry programmes will be allowed only up to the estimated extent of underspending in other intercountry programmes, not to exceed 15 per cent of each third-cycle illustrative IPF (at 55 per cent); for the purpose of borrowing from the fourth cycle, the global and interregional programmes may be counted together as recommended in the report of the Administrator on the resource needs of the global programme (DP/1984/20/Add.1);

(f) In all cases the borrowed amount will constitute a first charge against the corresponding fourth-cycle IPF;

(g) The Administrator will report to the Governing Council on his use of selective borrowing from the fourth cycle;

12. Approves, furthermore, a pro-rated illustrative IPF for St. Helena of \$330,000 for the years 1984-1986;

13. Takes note of:

(a) The continued lack of adequate data to calculate illustrative IPFs for Democratic Kampuchea and Lebanon, for which provisional illustrative IPFs of \$25.5 million and \$10 million, respectively, will remain in effect until sufficient data are available;

(b) The fact that, while revised data were available for Hungary, the illustrative IPF for Hungary remains unchanged at its "floor" level, namely \$3.5 million;

(c) The accession to independence of Brunei Darussalam and the consequent revision of its illustrative IPF to \$730,000;

14. Takes note of the report of the Administrator (DP/1984/20, chap. VI) on movement towards net contributor status as outlined in paragraph 6 (e) of Governing Council decision 80/30, and urges those countries which have not made progress towards the targets outlined in that decision to increase their efforts to do so, with a view to reaching those targets.

84/18. Economic and social crisis in Africa

The Governing Council,

Recognizing with deep concern the economic and social crisis in Africa, aggravated, inter alia, by unfavourable climatic conditions and poor agricultural production in recent years, directly affecting a large part of the African population as well as the prospects for economic growth, development and the attainment of self-reliance,

Conscious of the particular burdens and severe difficulties faced by most African Governments, and the need for appropriate, intensive and sustained co-operation with and support from the United Nations Development Programme, other multilateral and bilateral aid partners, and the international community,

Taking note with appreciation of the special initiative taken by the Secretary-General in response to the immense and immediate needs in Africa, and of the close collaboration and support provided to the Secretary-General by the Administrator in this regard,

Taking note also of the report of the Administrator on the implementation of selected country programmes in the Africa region, 1983 (DP/1984/22) and of his comments on this subject in his introductory statement,

Taking note further of the report of the Administrator concerning Programme activities in the Africa region during the past year (DP/1984/22/Add.1),

Bearing in mind its decision 84/10 of 29 June 1984 on the implementation of the Substantial New Programme of Action for the 1980s for the Least Developed Countries,

1. Reaffirms the importance of the central co-ordinating role of the United Nations Development Programme within the United Nations system in assisting African Governments to meet their urgent needs as well as their medium-term and long-term technical co-operation requirements for development;

2. Urges member Governments, organizations of the United Nations development system and other multilateral programmes within the technical assistance programmes of the United Nations to make use, as appropriate, of the capacity of the resident co-ordinator and the United Nations Development Programme field network at the request of the recipient country concerned for the improvement of the co-ordination of technical co-operation activities at the country level to increase aid effectiveness;

3. Invites the Administrator to continue to assist Governments, at their request, in strengthening their national planning and co-ordination capabilities;

4. Further invites the Administrator, pursuant to paragraph 23 of General Assembly resolution 38/171 of 19 December 1983 to continue his efforts at closer collaboration with the World Bank and regional development banks and with other organizations of the United Nations development system, in such areas as programming and co-ordinating assistance flows, resource mobilization and development of priority activities which could help meet immediate needs and strengthen the foundation for long-term development in Africa;

5. Notes with appreciation the attention the United Nations Development Programme is giving to round-table conferences of donors organized with Programme assistance in the Africa region in order to improve development assistance efforts and aid co-ordination, and requests the Administrator to provide all possible support to future round-table conferences and to follow-up activities including donor consultations, which are being undertaken by an increasing number of African countries towards the end of maximizing the effectiveness of those conferences as a forum for candid discussion of development needs and problems leading to increased aid flows, where appropriate, and improved design and implementation of programmes;

6. Urges donor countries to support the efforts of African countries, through the United Nations Development Programme and such other funds and programmes under the Administrator's authority as the United Nations Sudano-Sahelian Office, the United Nations Capital Development Fund and the United Nations Volunteers, to plan and implement development projects and programmes designed to meet immediate needs and build Africa's capacity to deal more effectively with development problems, including periodic drought and famine, as well as the limited institutional capacity which the continent faces;

7. Urges all multilateral and bilateral aid partners, including non-governmental organizations, to consider supporting priority development projects related to the economic and social crisis in Africa through, inter alia, co-financing and other cost-sharing arrangements with the United Nations Development Programme;

8. Requests the Administrator to take all appropriate measures to effectively support the Second International Conference on Assistance to Refugees in Africa, to be held at Geneva from 9 to 11 July 1984, and its appropriate follow-up;

9. Supports the Administrator's initiative to channel on an immediate and exceptional basis an increased number of United Nations volunteers to the most severely affected countries in Africa, and to augment their indigenous infrastructure with technical personnel to handle the material assistance being provided from a variety of sources to face the current situation of economic crisis;

10. Endorses the Administrator's intention to review the capacity of field offices in the Africa region to undertake effectively the additional workload arising from the evolving circumstances and increased responsibilities which were not foreseen at the time of the Headquarters and Field Office Staffing Survey, and to present to the Governing Council at its thirty-second session recommendations on how field offices in Africa may better cope with the realities of the current economic and social crisis as well as the immediate and long-term developments in Africa;

11. Notes with appreciation the speedy action taken by the Administrator to implement paragraph 1 (a) of General Assembly resolution 38/201 of 20 December 1983, the major part of the funds referred to therein having been applied, in accordance with that resolution, to finance urgently needed projects in countries afflicted by famine and malnutrition in Africa;

12. Requests the Administrator to bring to the attention of the Economic and Social Council, at its second regular session of 1984, during its high-level debate on the economic and social crisis in Africa, the action taken by the Governing Council at its thirty-first session in respect of Africa;

13. Welcomes the efforts made by the Administrator in assisting in the implementation of the Secretary-General's initiative on the economic and social crisis in Africa and requests the Administrator to continue to provide his fullest support to that initiative.

84/19. Use of United Nations volunteers to assist the most severely affected African countries in the implementation of emergency assistance programmes

The Governing Council,

Having considered the report of the Administrator on the use of United Nations volunteers to assist the most severely affected African countries in the implementation of emergency assistance programmes (DP/1984/22/Add.1),

Cognizant of the natural disaster, namely prolonged drought, that is besetting the African region,

Recalling that the Administrator is authorized by Governing Council decision 80/48 of 30 June 1980 to approve special projects to finance emergency assistance and to assist in the rehabilitation and reconstruction of stricken areas,

1. Approves, on the understanding that this should not be regarded as a precedent, an allocation of \$1.5 million from Special Programme Resources for a regional project in Africa south of the Sahara to counter the effects of the natural disaster in the region by providing United Nations volunteers to the affected region;

2. Notes that the project document will be elaborated by the Administrator in collaboration with the Governments of the developing countries concerned;

3. Takes note of the Administrator's assurance that fully structured assignments will be worked out with recipient Governments prior to sending United Nations volunteers to their field positions.

2. Requests the Administrator, in continuation of and guided by the discussion on this subject at the thirty-first session of the Governing Council, to prepare and submit at the special meeting alternative scenarios for the fourth programming cycle;

3. Requests the Administrator to arrange, in accordance with paragraph 1 (b) of section I of Governing Council decision 83/5 of 24 June 1983, informal consultations during the latter half of 1984 among all participating Governments to discuss the size of the resources to be taken into account for the next programming cycle;

4. Requests the Administrator to submit to the Governing Council at its thirty-second session a detailed report elaborating the suggestions contained in paragraph 17 of his report, taking fully into account the views expressed thereon during the debate at the thirty-first session.

84/21. United Nations Fund for Population Activities

The Governing Council,

I

Recalling paragraphs 2 and 3 of General Assembly resolution 3019 (XXVII) of 18 December 1972, concerning the role of the Governing Council of the United Nations Development Programme relating to the United Nations Fund for Population Activities,

Taking note of the reports of the Executive Director of the United Nations Fund for Population Activities on the activities of the Fund in 1983 (DP/1984/28, (Parts I and II); DP/1984/29; DP/1984/30 and Corr.1; DP/1984/30/Add.1 and Corr.1),

Continuing to emphasize the importance of the human rights and voluntary aspects of family planning for individuals and couples, as embodied in the World Population Plan of Action, i/ the Universal Declaration of Human Rights, j/ and other international declarations and strategies adopted by the United Nations,

Taking into account the statements made by delegations at the thirty-first session of the Governing Council,

1. Notes with satisfaction the trends in the proportion of assistance allocated to the priority programme areas outlined in paragraph 3 of section I of Governing Council decision 81/7 of 23 June 1981, as reflected in the annual report of the Executive Director of the United Nations Fund for Population Activities for 1983 (DP/1984/28 (Parts I and II)), and expresses the hope that these trends will continue, keeping in mind the current needs of some individual countries for support in lower priority work-plan categories and the role of women in population activities;

2. Also notes the increase in 1983 in the proportion of population assistance from the Fund to the priority countries, and reiterates the goal of devoting up to two thirds of country programme assistance to the priority countries for population assistance from the Fund;

3. Further notes the need for paying special attention to increasing absorptive capacities, particularly in Africa;

4. Expresses its concern about the decrease in the programme and project implementation rate for 1983 and urges the Executive Director to take all necessary steps to improve the implementation rate in 1984 and future years and to report to the Governing Council at its thirty-second session on progress achieved, on obstacles, and on measures to be taken towards improving programme and project implementation and monitoring;

5. Takes note with appreciation of the report of the Executive Director on the evaluation activities of the Fund (DP/1984/33), endorses the approach to future evaluation activities outlined therein and the need for training in evaluation at all levels, encourages increase in these activities, and notes that a report will be made to the Governing Council at its thirty-third session on the comparative results of past evaluations, according to the major work-plan categories, including activities related to women, as requested in paragraph 7 of section I of Council decision 83/17 of 24 June 1983;

6. Expresses its appreciation for the reports of the Executive Director on programme planning (DP/1984/34) and programming procedures (DP/1984/35 and Corr.1) and, taking into account the views expressed by Governing Council members, requests the Executive Director to further improve programme planning and programming procedures;

7. Expresses its appreciation for the report of the Executive Director on the programmes of the regional and interregional demographic training and research centres (DP/1984/41), supports continued assistance to such centres, taking into account the particular needs of the centres located in Africa south of the Sahara, and requests the Executive Director to provide a progress report to the Governing Council at its thirty-third session on the extent to which these centres have incorporated the principles related to funding and programming outlined in his recommendation (DP/FPA/PROJECTS/REC/8) and including steps taken by such centres to achieve self-reliance;

8. Requests the Executive Director to strengthen his efforts to reduce, as appropriate, the proportion of assistance from the Fund allocated to intercountry activities and to provide a report to the Governing Council at its thirty-third session, clarifying the definition of intercountry activities and reviewing the possibility of a revision of the definition and the target;

9. Expresses its appreciation to all donors to the United Nations Fund for Population Activities, and urges all countries that are able to do so to increase their contributions to the Fund;

10. Also urges Governments to make payments of their contributions to the Fund as early as possible;

II

Taking note of the report of the Executive Director of the United Nations Fund for Population Activities on Fund strategy for support of contraceptive research (DP/1984/36),

1. Approves the general principles outlined in section I of that report;

2. Decides that the level of the Fund's contribution to the Special Programme of Research, Development and Research Training in Human Reproduction of the World Health Organization should be fixed at \$2 million for 1985;

3. Approves the strategy for funding contraceptive research set forth in paragraph 19 of the report of the Executive Director;

4. Requests the Executive Director to submit to the Governing Council at its thirty-second session a brief report on the results of the recommendations of the Policy and Co-ordination Committee of the Special Programme, together with a recommendation for the level of UNFPA funding for that Programme for the period 1986-1989;

III

Expressing its appreciation for the update of the review and reassessment of the programme of the United Nations Fund for Population Activities and the work plan for 1985-1988, contained in the report of the Executive Director (DP/1984/31), noting the request for approval authority also contained therein (paras. 55-59), and commending the Executive Director for his cautious approach in forward planning,

1. Approves the update of the review and reassessment contained in the report of the Executive Director and the principles listed therein, as well as the work plan for 1985-1988, on the understanding that the Executive Director will limit approval of projects to available resources, and also approves net additional approval authority in accordance with the work plan in the following amounts:

(a) For 1984, an additional \$3.8 million to bring the total for 1984 to \$142 million;

(b) For 1985, \$48.4 million to bring the total for 1985 to 100 per cent of the 1985 level or \$152 million;

(c) For 1986, \$44.9 million to bring the total for 1986 to 75 per cent of the 1985 level or \$114 million;

(d) For 1987, \$41.5 million to bring the total for 1987 to 50 per cent of the 1985 level or \$76 million;

(e) For 1988, \$38 million or 25 per cent of the 1985 level;

2. Expresses its appreciation for the report of the Executive Director on the status of financial implementation of Governing Council-approved country programmes and projects of the United Nations Fund for Population Activities (DP/1984/32), and requests that similar reports be provided in future years as an annex to the work plan and request for approval authority;

3. Further requests the Executive Director in the next work plan to report on intercountry activities by work-plan categories, noting constraints encountered in achieving the 25 per cent target set for intercountry programme activities;

IV

Noting that over the past decade changes have taken place in the perception of the relationship between population issues and social development,

Also noting that active intergovernmental guidance in the formulation of policy guidelines for population programmes is required in view of the increased dimension and interdisciplinary nature of these programmes,

Noting further the suggestions and recommendations from several intergovernmental conferences and meetings in the context of preparations for the International Conference on Population, to be held at Mexico City from 6 to 13 August 1984, on the role of the United Nations in population activities, with particular reference to the strengthening of the activities of the United Nations Fund for Population Activities (DP/1984/INF/4),

1. Requests the Executive Director of the United Nations Fund for Population Activities to report to the Governing Council at its thirty-second session on the implications of the recommendations of the International Conference on Population for the activities of the Fund within its existing mandate;

2. Invites the Secretary-General, subsequent to the International Conference on Population, to take into account the views of the Governing Council in the study and examination of ways and means to ensure the more effective delivery of population assistance by the United Nations system;

Recalling resolution 367 (XIV), adopted on 27 March 1979 by the Conference of Ministers of the Economic Commission for Africa, k/ by which the Conference of Ministers, inter alia, requested the Executive Secretary of the Commission to initiate negotiations with the host Governments to modify the agreements governing the Regional Institute for Population Studies at Accra and the Institut de formation et de recherche démographiques at Yaoundé to make them regional in character and to enable all the countries served by the institutes to take a full part in the management and financial support of those institutes,

Recalling further General Assembly decision 37/444 of 21 December 1982, by which the Assembly approved the new statutes of the two institutes,

Taking note of the generally expressed need by the Demography Committee of the Joint Conference of African Planners, Statisticians and Demographers for facilities for middle-level training,

Aware of the continued need of African countries for demographers and expertise to ensure the integration of population variables in African development planning,

Taking note of the precarious financial state of the Institut de formation et de recherche démographiques due to the insufficiency and irregularity in the receipt of contributions from the member States consequent to regionalization,

Taking note also of the issues raised by United Nations Fund for Population Activities evaluation missions and the efforts being made to resolve them,

Concerned about the reduction in UNFPA funding of the training institutes and the poor prospects for future funding of the institutes,

Conscious of the economic crisis of unprecedented proportions which the African countries are experiencing, the efforts they are making to overcome this crisis and the need of those countries for increased international support,

1. Takes note with appreciation of the support extended to the African institutes by the United Nations Fund for Population Activities;
2. Requests the Executive Director of the Fund to provide adequate financial support to the Regional Institute for Population Studies and the Institut de formation et de recherche démographiques to enable them to continue to operate effectively;
3. Urges African Governments to strive for increased contributions to the institutes, in particular prompt payment of their assessed contributions in order to enable the institutes to be self-supporting in the near future;
4. Requests the Executive Director of the Fund to submit a report to the Governing Council of the United Nations Development Programme at its thirty-third session on the steps being taken to transfer the responsibilities for the activities of the institutes to participating member States;

k/ See Official Records of the Economic and Social Council, 1979, Supplement No. 15 (E/1979/50), part two, sect. D.

VI

Having considered the report of the Executive Director of the United Nations Fund for Population Activities on the inclusion of Fund deputy representatives and limited core staff in the regular manning table (DP/1984/38 and Corr.1), and the comments of the Advisory Committee on Administrative and Budgetary Questions thereon (DP/1984/40) and the proposed amendments to the Financial Regulations of the Fund (DP/1984/72),

1. Requests the Executive Director of the United Nations Fund for Population Activities in preparing the budget of the Fund for the biennium 1986-1987, to include all international and local staff in headquarters and in field offices, without prejudice to a final decision by the Governing Council at its thirty-second session on the appropriate format;

2. Decides that the Governing Council, when considering the budget of the Fund for the biennium 1986-1987, shall also consider if and to what extent field posts should be established on a permanent or temporary basis and the criteria which should be applied in determining those deputy representative and senior adviser on population posts to be proposed for inclusion in the regular manning table, taking into account the recommendation of the Advisory Committee on Administrative and Budgetary Questions thereon;

3. Notes the intention of the Executive Director to prepare a detailed implementation plan and revised manning table to be included in the document which he has been requested to prepare on the Fund's basic manpower requirements for consideration by the Governing Council at its thirty-second session;

4. Approves the amendment to regulation 16.3 of the Financial Regulations of the Fund, relating to the submission of annual accounts to the United Nations Board of Auditors;

5. Notes the amendments to the annex to the Financial Regulations of the United Nations, made by the General Assembly in its decision 38/408 of 25 November 1983, concerning additional terms of reference governing the audit of the United Nations, and notes that these will consequently be reflected in the information annex to the Financial Regulations of the Fund;

6. Requests the Executive Director to revise the Financial Regulations of the Fund incorporating the amendments thereto set out above;

VII

Having considered the audited accounts of the participating and executing agencies for the year 1982 (DP/1984/39),

Noting that the audited accounts of the participating and executing agencies of the United Nations Fund for Population Activities for 1982, and those for prior years, have not been accompanied by narrative audit reports,

Considering that actions taken as a result of past decisions of the Governing Council in connection with the audit reports of participating and executing agencies of the United Nations Development Programme would be equally appropriate in the case of the Fund,

1. Emphasizes the importance which the Governing Council attaches to receiving narrative audit reports which disclose the results of audits that are sufficiently wide in scope to cover those areas which the Council has identified in its previous decisions, including, in particular, the audit of the effectiveness of financial management;

2. Requests the Executive Director of the United Nations Fund for Population Activities to bring the present decision, and the views expressed by the Budgetary and Finance Committee in the course of its discussion of this matter, to the attention of the Panel of External Auditors and of the administrations of the participating and executing agencies, and to report to the Governing Council on their reaction;

3. Further requests the Executive Director to provide annually an oral report to the Budgetary and Finance Committee in regard to the Fund's annual audit as submitted to the Fifth Committee of the General Assembly and the response of the Fund to such audit.

84/22. United Nations technical co-operation activities

The Governing Council,

Taking note with appreciation of the report of the Secretary-General on United Nations technical co-operation activities (DP/1984/42 and Add.1-3) and recalling its decision 83/16 of 24 June 1983,

1. Notes with appreciation that the Department of Technical Co-operation for Development of the United Nations Secretariat has streamlined its organizational structure and reduced its administrative costs, and endorses the efforts of the Department to promote a more integrated approach to programme and project management, and to improve further its processes and procedures with a view to achieving greater effectiveness and efficiency in the delivery of its services to developing countries;

2. Notes with concern, however, the decline in the availability of resources necessary to maintain programmes and projects of vital interest to developing countries, which decline may put at risk the effective carrying out of projects entrusted to the Department;

3. Reiterates its request that necessary action be completed, in pursuance of General Assembly resolution 32/197 of 20 December 1977, to strengthen the role of the Department, as the main operational arm of the United Nations Secretariat for management of technical co-operation activities, in order to eliminate any unnecessary overlap and duplication of functions;

4. Further invites, pursuant to General Assembly resolution 38/171 of 19 December 1983, financial and funding institutions to take full account of the Department's special competence, experience and operational capability when designating an executing agency or advising Governments on sources of assistance for implementation of projects which they may fund in fields where the Department has recognized expertise;

5.
